## About Terralis

Terralis is a Geelong-based environmental consultancy delivering practical, science-driven solutions across contaminated land, remediation, environmental compliance, and emerging drone-based environmental services. Our clients include developers, industry, local councils, and infrastructure managers who rely on us for clear advice, regulatory insight, and on-the-ground execution.

We pride ourselves on combining environmental expertise with innovation and local knowledge. Whether managing contamination risks, conducting groundwater assessments, or mapping sites with drone-based technologies, Terralis brings sharp thinking and reliable delivery to every project.

---

## Core Services

### Contaminated Land

- Preliminary Site Investigations (PSI) and Detailed Site Investigations (DSI)
- Contamination delineation and Remediation Action Plans (RAPs)
- Vapour intrusion assessments and asbestos-in-soil investigations
- Environmental due diligence for planning, acquisition and redevelopment

### Remediation

- Site remediation design and supervision
- Excavation, soil classification and disposal coordination
- In-situ treatment and management plans
- Tank decommissioning and validation

### EPA Compliance & Risk Management

- Environmental Management Plans (EMP, GQMP, SCMP)
- General Environmental Duty, Duty to Notify and Duty to Manage guidance
- Liaison with the EPA and environmental auditors
- Clean-Up Notices response strategies and compliance documentation

### Drone Mapping & Monitoring

- RGB and multispectral mapping for vegetation, erosion, and encroachment
- Thermal imaging for site diagnostics and infrastructure monitoring
- Aerial site documentation for reporting and risk tracking
- GIS-integrated outputs for modelling and asset management

### Hazardous Materials & Waste

- Asbestos sampling and air monitoring
- Prescribed industrial waste categorisation

- 
- Underground Storage Tank (UST) surveys and removal
  - Waste reclassification and off-site disposal logistics
- 

## Why Choose Terralis

- **Trusted Advice:** We demystify compliance and explain technical findings clearly.
  - **Responsive Team:** Our size makes us agile. We respond quickly and communicate directly.
  - **Regulatory Know-How:** We understand how to deliver outcomes that meet EPA and planning authority expectations.
  - **Innovative Methods:** Our use of drones and digital data management supports faster, clearer reporting.
- 

## Past Clients

- City of Greater Geelong
  - Local Councils
  - Regional private developers
  - Petroleum retailers
  - Infrastructure and asset managers
-
